Summary

Full Stack Software Engineer with a parallel 7-year tech & creative design industry journey, managing a **1.7M subs YT channel**, former founder of a tech news website, and an avid freelancer with works featured in Forbes, Uber, and more.

Technical Skills

Languages: C, Java, Python, JavaScript, TypeScript, SQL (Postgres/MySQL), Mongo, HTML/CSS, SASS
Frameworks: React, Node.js, Flask, Vue.js, Next.js, Nuxt, Express.js, Prisma, Bootstrap, Tailwind
AI / LLMs: OpenAI API, Claude, on-premise AI, RAG, embeddings, speech-to-text, prompt engineering
Tools: Git, Docker, GraphQL/REST APIs, CI/CD, AWS, GCP, Kubernetes, Prometheus, Adobe Suite, Figma, Unit Testing

Experience

Software Developer April 2024 – Present
McGill University *Montreal, QC – Full-time*

- Senior full-stack / infrastructure engineer supporting astrophysical research; operate **10+ node Docker Swarm clusters** with petabyte-scale data flow, containerize legacy services, and manage Docker Secrets, Prometheus/Grafana monitoring, automated backups, and recovery workflows.
- Improved & Extended Python / Sanic APIs and MongoDB reliability, achieving **over 40% fewer failed calls** by diagnosing multi-CPU failure modes, hardening Docker Swarm configs, and load-testing.
- Built research data systems with Next.js, PostgreSQL, and Kubernetes, making data on **5,000+ fast radio bursts** accessible to scientists & astronomers through searchable catalogs and a public API.
- Led frontend development and migrated critical features from Vue 2, Django, and other legacy systems into newer platforms; maintained existing services and documented changes for non-technical stakeholders.

Founder & Lead AI Systems Engineer May 2024 – Present
afrokk.studio – Boutique software studio

- **Founded** afrokk.studio, partnering with a handful of founders at a time to build products end to end across fintech, healthcare, compliance & analytics.
- Own architecture and delivery on every build: scope roadmaps with founders, lead small engineering teams from prototype to production, and maintain products after launch.
- Rewrote a digital lender's lending engine with automated loan models and grew its loan portfolio from **US$75K to US$135K (+80%)** in a year.
- Shipped AI products to production: LLM and speech-to-text pipelines, RAG and embeddings, document parsing, and privacy-first data handling for healthcare.

Creative Design Manager March 2019 – Present
YouTube (@xeetechcare)

- Directing a thriving **1.7 million subscribers** YouTube channel to produce tech content for a worldwide audience.
- Managing partnerships with top-tier brands including Samsung, Google, Apple, and more across diverse sectors.
- Generating over **3+ million monthly views** by producing **3,000+ videos** to-date on emerging tech, spanning smartphones, appliances, electric vehicles, and more.
- Engineered a VueJS channel website and an interactive Discord Python chatbot to boost community engagement.
- Enhanced views from high CPM regions by **40%** through SEO strategies, significantly boosting monetization potential.

Education

University of Windsor Windsor, ON
***Bachelors in Computer Science**, Minor in Communications, Media & Film | **GPA: 3.9/4.0** | President's List* *2024*

Projects (more on afrokk.dev)

Echo Therapy | *Next.js, TypeScript, PostgreSQL, Redis, BullMQ, S3/MinIO, AWS, OpenAI*

- Architected and built Echo, a **HIPAA-compliant** therapy practice platform integrating secure patient records, scheduling, session workflows, and AI-driven transcription, privacy masking, structured note generation, and clinician approval.
- Engineered a fault-tolerant, compliance-focused pipeline with presigned S3 uploads, Redis/BullMQ workers, database RLS policies, auditable PostgreSQL state transitions, PHI-minimized logs, and automatic data deletion.
